# Fresh Ahead

## Company Description

At FreshAhead, we're pioneering a new era in agriculture by harnessing the transformative power of software. Our mission is clear: to unlock software's true potential within the agricultural industry by fundamentally reimagining how people build, use, and share software—creating intuitive solutions that deliver real-world impact and lasting value. We empower agricultural enterprises to optimize operations, make data-driven decisions, and accelerate meaningful digital transformation. We're not merely creating software—we're driving impactful change. Managing over \$1 billion in commodities annually, our innovative solutions actively reduce waste, boost productivity, and promote sustainable farming practices.

# Helena Agri-Enterprises

## Company Description

Helena Agri-Enterprises, LLC is an innovator and service provider for agricultural and professional markets in the United States and around the world. Helena is one of America's only retailers and distributors with expertise in formulation, research and development, precision technology, data solutions, professional application, and manufacturing. We consistently rank near the top nationally in volume and sales in chemicals, fertilizer, custom application, seed and precision agriculture, as well as turf management, industrial weed control, forestry, aquatics and more. Our subsidiaries are vital parts of the global supply chain, playing critical roles in the production of safe food and fiber. Together, we keep agriculture moving to ensure the success and longevity of your business. Helena was founded in West Helena, Arkansas, in 1957. Today our headquarters is outside of Memphis in Collierville, Tennessee, with regional offices located strategically throughout the country. Our retail and wholesale distribution network exceeds 6,000 employees and 500 locations nationwide. As members of your community, we provide everything you need to manage your land, including crop inputs, consultation, financial services, custom application, and digital tools. Our ultimate goal is to help you make better decisions using the same values we've relied on for nearly 70 years – People... Products... Knowledge... Through knowledgeable and dedicated people, superior products, and the latest, proven technologies, Helena is committed to helping customers succeed.

# Ocean Mist Farms

## Company Description

Headquartered in Castroville, California, Ocean Mist Farms is the largest grower of fresh artichokes in North America. Farming artichokes year-round in three ideal California growing regions: Castroville, Oxnard and Coachella, in addition to southern growing regions including Baja, Mexico and Yuma, Arizona. Our growing areas are selected for their fertile ground and productive microclimates. Castroville is, in fact, known as “The Artichoke Capital of the World” and Artichokes were named the official state vegetable of California in 2013! In addition to artichokes, Ocean Mist Farms grows and offers a full line of premium, fresh commodity vegetables as well as value-added options for those time-starved consumers who are looking for fresh vegetable options that are peeled/cored/chopped and ready to use and enjoy out-of-package. Our fresh produce is grown using conventional methods and can be found in fine grocery stores across North America.

# Rosa Brothers Milk Company

## Company Description

Rosa Brothers Milk Company is a family-owned dairy, and our farm produces the freshest, most wholesome milk available. Our family was raised in Hanford, California, and we've continued to stay local, true to our Hanford roots. We are a third-generation dairy farm, and we grow the crops that are fed to our herd of Holsteins. Since 2012, we have been providing our delicious glass-bottled milks and super premium ice creams to customers throughout California. Our milk is bottled or crafted into ice cream at our Tulare Creamery in as little as 12 hours from harvest from our cows. We truly are farm to table! Currently, over 1,100 grocery stores, markets, convenience stores, bakeries and delis sell our products.

# Taylor Farms

## Company Description

Our story began in the Salinas Valley, affectionately called America's Salad Bowl. It was here, where Bruce Taylor followed in the footsteps of his father and grandfather and became the third generation to work in the fresh produce business. In 1995, Bruce and several partners founded Taylor Fresh Foods. A new company with a new vision was born – to be North America's favorite maker of salads and healthy fresh foods. We've come a long way since our humble roots, growing our business to 20,000 employees with care and purpose like we do our products. It is thanks to our team's dedication that we are able to make wholesome fresh foods that nourish families across the country. The family spirit drives every attribute of our company and is the driver of our success. Our products are made with earth's honest ingredients, and none of the nonsense. From our humble beginnings, we sought to be America's favorite maker of salads and healthy, fresh foods. By partnering with hundreds of family farmers across the country, we've become just that.

# Teach Ag

## Company Description

Teach Ag California is a statewide initiative focused on recruiting and supporting agriculture teachers to strengthen California's agricultural education system. Agriculture is a key industry in the state, yet there's a growing shortage of qualified ag teachers even as student enrollment in ag programs rises. Teach Ag California promotes the value and impact of teaching agriculture, highlights career pathways and requirements for becoming an ag educator, and encourages passionate individuals to "do what you love" by shaping the next generation of agricultural leaders, entrepreneurs, and problem-solvers.
